Set up the PPTP VPN on Windows 8-10

This step-by-step tutorial shows how to setup a PPTP connection on Windows and start using VPN servers.

**Step 1.** Open Network and Sharing Center from Control Panel. Then choose Set up a new connection or network.
Step 2. In the next window, choose: **Connect to a workplace** and click **Next**.

Step 3. In the next window, choose **Use my Internet Connection (VPN)**.
Step 4. Under Internet address type `vpn.iesl.forth.gr`.

Step 5. Then enter IESL-FORTH VPN as the name of the connection in the Destination name box (you can name it as you want). Then click Create.

Step 6. Click on the network icon on the bottom right-hand corner.

Step 7. Click again on the network monitor icon on the bottom right-hand corner, find IESL-FORTH VPN connection and click connect.
Step 8. Type your email address (username@iesl.forth.gr) and password and click OK.

Done, your Windows now should be connected to the VPN server.
