## VPN HOWTO WINDOWS 8-10 ver 3.1

## Copyright by CC/IESL-FORTH

This step-by-step tutorial shows how to setup a PPTP connection on Windows and start using VPN servers.

Step 1.Open Settings from Windows 10 start menu Then choose Network & Internet.

Settings						-	×
			W	/indows Settings			
			Find a setting	g	9		
	旦	<b>System</b> Display, sound, notifications powe <sup>2</sup>		Devices Bluetooth, printers, mouse		Phone Link your Android, iPhone	
		Network & Internet Wi-Fi, airplane mode, VPN	ø	Personalization Background, lock screen, colors	Ē	Apps Uninstall, defaults, optional features	
	8	Acccunts Your accounts, email, sync, work, family	。 A字	Time & Language Speech, region, date	⊘	Gaming Game bar, captures, broadcasting, Game Mode	
	Ģ	Ease of Access Narrator, magnifier, high contrast	0	Cortana Cortana language, permissions, notifications	A	Privacy Location, camera	
	C	Update & Security Windows Update, recovery, backup					

Step 2. In the next window, choose: VPN.

$\leftarrow$ Settings		_	×
命 Home	Status		
Find a setting $\begin{subarray}{c} \end{subarray} \end{subarray}$	Network status		
Network & Internet	旦—⊡—∰		μ
Status	Local Area Connection iesl.forth.gr		μ
문 Ethernet	You're connected to the Internet		μ
🕾 Dial-up	metered connection or change other properties.		
% VPN	Change connection properties		
🕑 Data usage	Show available networks		
Proxy	Change your network settings		-
	Change adapter options View network adapters and change connection settings.		
	Sharing options For the networks you connect to, decide what you want to share.		
	▲ Network troubleshooter Diagnose and fix network problems.		
	View your network properties		

## Step 3. In the next window, choose Add a Vpn Connection

$\leftarrow$ Settings		_	×
டை Home	VPN		
Find a setting $\wp$	VPN		
Network & Internet	+ Add a VPN connection		

Step 4. Under VPN provider choose Windows (Build-in)

**Step 5**. Then enter **IESL-FORTH VPN** as the name of the connection in the **Connection Name** box (you can name it as you want)..

Step 6. Then enter server name or address : vpn.iesl.forth.gr

Step 7. Under VPN type choose Secure Socket Tunneling Protocol(SSTP)

Step 8. Under Type of sign-in info choose User name and password

**Step 9.** Type your email address (<u>username@iesl.forth.gr</u>) as username and password and click **Remember my sign-in info** and click **Save** 

← Settings		_	×
	Add a VPN connection		
	VPN provider		
	Windows (built-in)		
	Connection name		
r	IESL-FORTH VPN		
	Server name or address		
	vpn.iesl.forth.gr		
	VPN type		
	Secure Socket Tunneling Protocol (SSTP) V		
	Type of sign-in info		
	User name and password $\sim$		
	User name (optional)		
	username ×		
	Password (optional)		
	Remember my sign-in info		
	Save Cancel		

**Step 10**. Click again on the network monitor icon on the bottom right-hand corner, find **IESL-FORTH VPN** connection and click **connect**.

Done, your Windows now should be connected to the VPN server.
